ISRAEL75: BUILDING ARTISTIC CONNECTIONS

This commemorative exhibition, marking the 75th anniversary since the establishment of the State of Israel, is the culmination of an educational, cultural and artistic project involving thousands of participants from Jewish schools in the UK, across Europe and the USA.

The students created artistic interpretations of works of art by some of Israel's most significant artists and original objects in its museums that represent the cultural, historical and religious connection to Israel.

This exhibition is composed of three parts: Ethnography, History and Art. Photos of the originals and the corresponding students' responses are displayed alongside one another and spread through two floors of JW3.

During your visit please sign the visitors book, tweet your photos using the hashtag #Israel75Project and enjoy the exhibition.

Curators: Nic Aberly and Tilla Crowne
Graphics: Chana Be'eri
